When used with item number given in the overview (beginning with "RA1..."), grid dividers are always supplied separately (standard supply).

Instead of the customary method of supplying the box and grid divider separately, the box can be supplied with the grid divider already inserted (no surcharge!). For this purpose the code in the item number for the grid divider (highlighted in yellow) must be added to the item number of the box.

Example: ALPHA Box of height 50 mm, white, standard as well as inserted grid divider of height 30 mm with 10x10 cells.

KA1050WH1 + 0301010N = Cat. No. KA1050WH10301010N

When used with item number given in the overview (beginning with "RA2..."), grid dividers are always supplied separately (standard supply).

Instead of the customary method of supplying the box and grid divider separately, the box can be supplied with the grid divider already inserted (no surcharge!).
For this purpose the code in the item number for the grid divider (highlighted in yellow) must be added to the item number of the box.

Example: ALPHA Box long2 of height 50 mm, white, standard as well as inserted grid divider of height 30 mm with 10x20 cells.

KA2050WH1 + 0301020N = Cat. No. KA2050WH10301020N

When used with item number given in the overview (beginning with "RB2..."), grid dividers are always supplied separately (standard supply).

Instead of the customary method of supplying the box and grid divider separately, the box can be supplied with the grid divider already inserted (no surcharge!).
For this purpose the code in the item number for the grid divider (highlighted in yellow) must be added to the item number of the box.

Example: BRAVO Box long2 of height 50 mm, white, standard as well as inserted grid divider of height 30 mm with 9x18 cells.

KB2050WH1 + 0300918N = Cat. No. KB2050WH10300918N

3x2	up to ca. 41.2 mm Ø	RBK0150302N	RBK0250302N	RBK0300302N	RBK0400302N	RBK0650302N	RBK0800302N

When used with item number given in the overview (beginning with "RBK..."), grid dividers are always supplied separately (standard supply).

Instead of the customary method of supplying the box and grid divider separately, the box can be supplied with the grid divider already inserted (no surcharge!).
For this purpose the code in the item number for the grid divider (highlighted in yellow) must be added to the item number of the box.

Example: BRAVO Box short of height 50 mm, white, standard as well as inserted grid divider of height 30 mm with 9x6 cells.

KBK050WH1 + 0300906N = Cat. No. KBK050WH10300906N

When used with item number given in the overview (beginning with "RM1..."), grid dividers are always supplied separately (standard supply).

Instead of the customary method of supplying the box and grid divider separately, the box can be supplied with the grid divider already inserted (no surcharge!).
For this purpose the code in the item number for the grid divider (highlighted in yellow) must be added to the item number of the box.

Example: MIKE Box of height 50 mm, white, standard as well as inserted grid divider of height 30 mm with 10x10 cells.

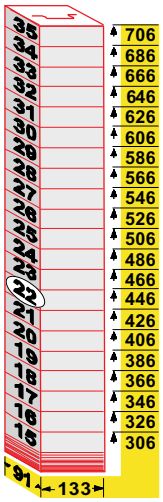
Mikrotiter Vertical Racks

For MT-Plates 86 x 128 mm (WxD). Stainless steel.

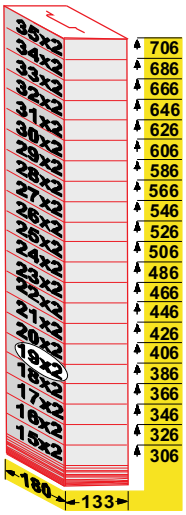
For Microtiter Plates or DeepWells of all familiar brands.

Up to 18 mm plate height.

Single



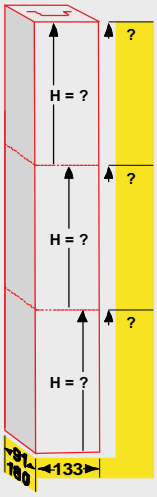
Double



Example:
Cat. No. **TM18-22AN**
Vertical rack with
22 bays
(Individual bays)

Example:
Cat. No. **TM18-19x2AN**
Vertical rack with
19 bays (2 plates next to
each other in each bay)

Personal Rack



If the examples shown here do not meet your storage needs, please let us know your requirements:

- Maximum height of the rack?
- Height of the plate stack or required internal height of the bays?
- How many racks are needed?

You will receive an individual quotation from us.

All vertical racks can be supplied with a safety rod if required.
Depth plus 5 mm.
Please enquire if needed.

Up to 39 mm plate height.

Nothing is impossible!

Well-organized freezers and refrigerators are an essential prerequisite for systematic, efficient and ultimately successful work – not only in scientific laboratories.

We provide the means to fulfil this prerequisite and devote ourselves to the task from a sense of conviction and with passion.

In fact, it is a passion for practical details and our liking for intelligent solutions.

This catalogue contains many suggestions for the interior fittings of all brands of refrigerator and freezer cabinets as well as freezer chests.

If you are looking for a solution to a problem or need assistance in setting up your refrigeration equipment, please contact us.

We will always be able to offer you a solution and will be glad to help you.

Isotherm Quick Freeze + Isotherm Mini Cooler

Isotherm Quick Freeze -70°C

For 12 tubes from 0.5 to 2.0 ml. With alphanumeric ID code on the transparent lid and the lower section.
For rapid and repeated refrigeration in the molecular biology laboratory. Can be used repeatedly for up to 45 minutes. Made of resistant polycarbonate filled with non-toxic insulating fluid. No direct contact between the tube and the insulating fluid. With non-slip feet.

Volume	Time taken to attain			
	-20°C (isopropanol)		0°C (water)	
1.5 ml*	with isopropanol	2.0 min.	with water	3.2 min.
0.5 ml*	with isopropanol/adapter	2.8 min.	with water	4.0 min.

* Time taken with micro centrifuge tubes (ca.)

Cat. No.	Colour	Cells	Vials (ml)	WxDxH (mm)
LCCQ51140012	white	4x3	0.5 to 2.0	151x108x125

Isotherm Mini Cooler 0.5 ml / 2.0 ml

For tubes from 0.5 to 2.0 ml. With alphanumeric ID code on the lid and the lower section.

Temperature-conditioning of reagents (enzymes, DNA, RNA, cell suspensions, etc.) on the laboratory bench. Made of resistant polycarbonate filled with non-toxic insulating fluid. No direct contact between the tube and the insulating fluid. With non-slip feet.

Cat. No.	Temp.	Colour	Cells	Lid	Storage time	WxDxH (mm)
LCCM51160012	0°C	red	4x3	without gel	<1°C/3.5 hrs.	151x108x125

LCCM51150032C	-20°C	yellow	8x4	without gel	<-15°C/1 hrs.	243x157x100**

** Height without fastening clip. With fastening clip in place, the height increases by approx. 50 mm.

Isotherm Mini Cooler 15 ml + Vacutainer[1)]

For 12 tubes, e. g. 15 ml vials alternatively Vacutainer [1)]. With alphanumeric ID code on the transparent lid and the lower section.

Made of resistant polycarbonate filled with non-toxic insulating fluid. No direct contact between the tube and the insulating fluid. With non-slip feet.

Cat. No.	Temp.	Colour	Cells	Lid	Storage time	WxDxH (mm)
LCCM51161600	0°C	red	4x3 for vials Ø16–17 mm (e. g. 15 ml centrifuge tubes)	without gel	<1°C/5 hrs.	197x140x190
LCCM51161300	0°C	red	4x3 for vials Ø12–13 mm (e. g. Vacutainer[1)])	without gel	<1°C/5 hrs.	197x140x190

[1)] Vacutainer is a registered trademark of Becton Dickinson.

Isotherm Mini Cooler + Cryo-Freezer

Isotherm Mini Cooler –20°C PCR

Specially developed to protect enzymes and other biological specimens while working at the laboratory bench. Removable aluminium block with 96 holes in universal 96-well standard format. Mini Cooler made of resistant polycarbonate filled with non-toxic insulating fluid. With non-slip feet.

With alphanumeric ID code on the aluminium block.

0.2-ml PCR tubes individually or in strips as well as 96-well plates are maintained at between –15°C and –20°C for up to 2 hours.

Cat. No.	Temp.	Cells	Lid	Storage time	WxDxH (mm)
LCCM96PCR	-20°C	12x8	without gel	<-20°C/2 hrs.	220x163x150**

** Height without fastening clip. With fastening clip in place, the height increases by approx. 50 mm.

Mr. Frosty polycarbonate cryo-freezer

Lid and tube holders made of HDPE with foam liner. Enables critical, repeatable cooling rate of approx. 1°C/minute for successful cryo-preservation and optimum cell yield.

Easy to use with 100% isopropanol and a freezing device.

For up to 18 cryo-tubes from 1.0 to 2.0 ml. No direct contact between the tubes and the alcohol. Instructions for use printed on device. Stackable.

Cat. No.	Vials	Dimensions (mm)
LCC5100	18	H x Ø = 86 x 117, Lid-Ø 120
