

KIMTECH™

POWERING SCIENCE

with Kimtech™ Laboratory Gloves

—
Working hand in hand to protect
the Scientist and the Science.

 **Kimberly-Clark**
PROFESSIONAL™

WHY KIMTECH™?

Kimberly-Clark Professional and the Kimtech™ Brand have been trusted partners to labs, cleanrooms and research facilities for more than 60 years. Because when you work in a challenging environment with no margin for error, you need solutions that protect people and processes from contamination risk. We are also leaders in sustainability. In 2011, we created The RightCycle™ Programme, the first large-scale recycling programme for diverting non-hazardous PPE waste. When you choose Kimberly-Clark Professional™, you're choosing a partner who not only values your business and customers, but also the world we share.

For the challenges you face and the standards you need to meet, there is no better choice - Kimtech™: PROTECTING YOU. POWERING SCIENCE.

PROTECT THE SCIENTIST

Laboratory Safety is your #1 Priority. Kimtech™ gloves are specifically designed to protect Scientists from Chemical Splash and Micro-Organism Hazards.

- ▶ EN ISO 374-1 Chemical splash protection certification
- ▶ EN 374-4 Resistance to degradation by chemicals
- ▶ EN ISO 374-5 Micro-Organism and Virus protection, the highest level of micro-organism protection possible for laboratory gloves
- ▶ Non detectable level of chemical accelerators to mitigate risk of skin irritation

PROTECT THE SCIENCE

Protection of procedures and assays from contamination is vital. Contamination costs time, money and credibility.

- ▶ Manufactured to reduce levels of residuals⁽¹⁾
- ▶ Certificates of Analysis available for each production lot⁽¹⁾
- ▶ Non detectable levels of silicone and amide

ASSURED COMPLIANCE

Kimberly-Clark Professional™ makes it easy to demonstrate compliance with Laboratory gloves.

- ▶ PPE Category III Certified for protecting from Chemical Splash and Micro-Organism Hazards
- ▶ Publish Certificates of Analysis (CoA) with every production lot to provide you with assurance of barrier quality and cleanliness of the gloves¹
- ▶ Our website www.kimtech.eu is a rich source of online documents, including Technical Data Sheets, Declaration of Conformity and Certificates of Analysis¹

What is The RightCycle Programme by Kimberly-Clark Professional™?

Sustainability matters to you and to us. That's why we created The RightCycle™ Programme, the first large-scale recycling programme for non-hazardous lab, cleanroom and industrial waste. Since 2011, we've helped hundreds of customers divert more than over 2000 tons of waste. We can do the same for you by turning your used single-use apparel and gloves into patio furniture and other useful products.

At Kimberly-Clark Professional™, we're always working to reduce the environmental impact of our products. Reducing our dependence on the world's natural resources leaves more for the future, for our children, for the planet and for our businesses. We strive to help customers like you reach your zero waste-to-landfill goals. The RightCycle™ Programme is part of this commitment and one very important way for us to work together, one ton of waste at a time.

In EMEA, the programme is available in the UK, Ireland, France, Spain, Germany, Austria, Belgium, Netherlands and Switzerland.

Giving non-hazardous, single-use apparel and gloves a new life.

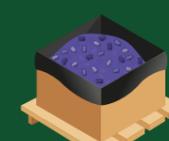

"For me, the biggest appeal about The RightCycle™ Programme is that it's the start of an EPR, an Extended Producer Responsibility, for a material that we don't often think about. Gloves are a high-volume, fast-moving commodity used by almost every industry. Once people start getting good at recycling primary commodities, such as paper and plastic, we're going to have to move to secondary commodities. Gloves bring you to that next level."

— Shantanu Pai
Assistant Sustainability Researcher,
Illinois Sustainable Technology
Center (ISTC)

Over 2000 tons & counting waste diverted since 2011

Apparel items and gloves are worn in your facility.

Used products are collected and shipped to our recycling centers.

Used products are sorted and processed into plastic pellets.

Materials are molded into new plastic products and durable goods.

For more information, visit:
<https://www.kimtech.eu/rightcycle>

 Look for this symbol to see which products are eligible for recycling

Kimtech™ Polaris™ Nitrile Gloves

- Proprietary nitrile formulation, using the latest manufacturing technologies
- Extended chemical splash protection, tested against a wide range of common chemicals and cytotoxic drugs
- Certified ergonomic comfort ensuring comfort in-use without compromising protection
- Non detectable levels of vulcanizing agent, reducing the risk of allergic reactions
- Textured fingertips and smooth finishing to prevent drops and breakage accidents, even when wet

Kimtech™ Polaris™ Nitrile Gloves are built for science, made for you and designed for use in laboratories, life science applications and non-sterile pharmaceutical manufacturing environments. These high-end ambidextrous powder-free nitrile gloves deliver seamless protection whenever and wherever it is needed. The optimized nitrile formulation (acrylonitrile-butadiene) features extended chemicals and chemotherapy drugs splash protection with no compromise on wearer comfort. Beaded cuffs and textured fingertips enable excellent handling of both wet and dry materials. These gloves have been extensively tested under stringent conditions and meet AQL 0.65 for water tightness which results in a low risk of pinholes. Powder-free, not made with latex or silicone, Kimtech™ Polaris™ Nitrile Gloves are designed to keep hands comfortable and protected whilst ensuring that research applications can be carried out contamination-free.

Assured Compliance: PPE Cat III according to Regulation (EU) 2016/425 and to the Regulation 2016/425 as brought into UK law and amended, EN ISO 374-1:2016 Type B (JKOPT) Chemical Splash protection, EN 374-4:2014 Resistance to degradation by chemicals, EN ISO 374-5:2016 Micro Organism and Virus protection, Food Contact approved

Kimtech™ Purple Nitrile™ Gloves

- › Featuring high levels of protection, cleanliness and quality.
- › Nitrile construction results in products that are stronger and leaner than latex gloves, and feature better protection against a wider range of chemicals, including cytotoxic drugs.
- › Textured fingertips enhance grip and tactile sensitivity for safer and more efficient processes.
- › Beaded cuffs add strength to the gloves, reducing the risk of tearing and increasing their durability, while also reducing roll down for easier donning and doffing.
- › Contain no natural rubber latex, silicone or powder, reducing the risks of skin irritation for the wearer. Available in two lengths.

Kimtech™ Purple Nitrile™ gloves keep hands comfortable while ensuring a high level of protection and contamination control in challenging life sciences and pharmaceutical manufacturing environments.

Assured Compliance: PPE Category III according to the Regulation [EU] 2016/425 and to the regulation 2016/425 as brought into UK law and amended, EN ISO 374-1:2016 Type B (JKT) Chemical Splash protection, EN 374-4:2014 Resistance to degradation by chemicals, EN ISO 374-5:2016 Micro Organism and Virus protection, Food contact approved

Description	XS	S	M	L	XL	Gloves / Box	Total / Case
Kimtech™ Purple Nitrile™ Gloves, 24/25 cm	90625	90626	90627	90628	90629	100 / 10 (XL = 90/10)	1,000 (XL = 900)
Kimtech™ Purple Nitrile™ Xtra™ Gloves, 30 cm	97610	97611	97612	97613	97614	50 / 10	500

Kimtech™ Sterling™ Nitrile Gloves

- › Manufactured using proprietary Sterling™ technology that combines security and comfort. The efficient, environmentally-friendly construction minimises waste without compromising safety.
- › Nitrile construction results in products that are stronger and leaner than latex gloves, and feature certified protection against a wide range of contaminants while also being food contact approved.
- › Gloves are anti-static tested to protect the wearer and equipment, ambidextrous and grey in colour.
- › Textured fingertips enhance grip and tactile sensitivity for safer and more efficient processes.
- › Beaded cuffs add strength to the gloves, reducing the risk of tearing and increasing their durability, while also reducing roll down for easier donning and doffing.
- › Contain no natural rubber latex, silicone or powder, reducing the risks of skin irritation for the wearer.

Kimtech™ Sterling™ Nitrile Gloves ensure excellent contamination control with innovative, skin-friendly nitrile suitable for a variety of applications. The gloves are powder and latex free, featuring beaded cuffs and textured fingertips.

Assured Compliance: PPE Category III according to the Regulation [EU] 2016/425 and to the regulation 2016/425 as brought into UK law and amended, EN ISO 374-1:2016 Type C (K) Chemical Splash protection, EN 374-4:2014 Resistance to degradation by chemicals, EN ISO 374-5:2016 Micro Organism and Virus protection, Food contact approved

Description	XS	S	M	L	XL	Gloves / Box	Total / Case
Kimtech™ Sterling™ Nitrile Gloves, 24/25 cm	99210	99211	99212	99213	99214	150 / 10 (XL= 140/10)	1,500 (XL=1400)

Kimtech™ Opal™ Nitrile Gloves

- › Improved comfort for extended wearing time.
- › High tactile sensitivity without compromise on wearer's safety.

Kimtech™ Opal™ Nitrile Gloves feature an innovative approach using a thin nitrile polymer with a tip thickness of just 0.07 mm, but with excellent tensile strength suitable for rigorous process use.

Easy to don, soft and comfortable, the gloves are suitable for extended wearing time. The absence of natural rubber latex, vulcanising agents¹ and no sulphur added, reduces the risk of TYPE I and TYPE IV glove-associated skin reactions, protecting the wearer as well as the application.

Assured Compliance: PPE Category III according to the Regulation [EU] 2016/425 and to the regulation 2016/425 as brought into UK law and amended, EN ISO 374-1:2016 Type B (KPT) Chemical Splash protection, EN 374-4:2014 Resistance to degradation by chemicals, EN ISO 374-5:2016 Micro Organism and Virus protection, 'Food Contact approved.'

Kimtech™ A7 P+ Laboratory Coat

- › High quality disposable laboratory coats with triple stitched seams and breathable, multi-layered material.
- › Enhanced all-round protective features are included, such as high mandarin collars, thumb-loops and extra-length arms to fit lab gloves over coats.
- › The coats are individually packed making them suitable for ISO 7 (Grade C) areas.

With a cloth-like feel and a reduced risk of heat stress, Kimtech™ A7 P+ lab coats ensure contamination control during extensive periods of use. Made from non-woven SMS fabric with triple stitched seams, they are silicone and latex free.
